PROJECTS

MY PORTFOLIO [REACT-MUI]

My personal portfolio showcases a range of creative projects I have worked on, including website and app designs that highlight my ability to deliver unique and engaging solutions.

- <https://mohab-khaled-portfolio.web.app/>

EDUCATION WEBSITE [REACT -BOOTSTRAP]

Focus on ease of use, make a good template and design, Coordinate colors and provide options for the user to make him comfortable, focus on clean code and best practice principles.

- <https://github.com/hobal/education-project>

PRODUCT MANAGEMENT SYSTEM [HTML-CSS-BOOTSTRAP-JS]

The page enables users to manage products by adding prices, discounts, and taxes, and calculating the final price. Users can also search for specific products or departments.

- <https://hobal.github.io/cruds-system/>

GAMING STORE [REACT -BOOTSTRAP]

Dealing with the API to fetch data and display it in an appropriate way that is comfortable for the eye and easy to use

CHAT APP [REACT -BOOTSTRAP]

Developed a real-time chat application using React, ensuring a seamless user experience. Implemented features such as live messaging and user authentication in a scalable and responsive interface.

- <https://chat-app-97fd5.web.app/app>

PROJECTS

E-COMMERCE [REACT-MUI-FRAMER MOTION]

Led the front-end development using React, ensuring a responsive and user-friendly interface that enhances the shopping experience across all devices.

- <https://e-commerce-661c3.web.app>

EXPENSES [REACT-REDUX-MUI]

Developed an innovative website for expense and spending tracking. Designed and implemented a system for managing costs and spending with an interactive and user-friendly interface.

- <https://host-expenses-api.web.app/>

ADMIN DASHBOARD [REACT-REACT HOOK FORM-MUI-NIVO]

Developed an admin dashboard featuring interactive data tables and various charts. Designed and implemented an intuitive and user-friendly interface for data visualization and analysis using chart libraries

- <https://admin-dashboard-6bea7.web.app/>

PERSONAL PORTFOLIO [HTML-CSS-BOOTSTRAP-JS]

Focus on doing a lot of animation and dealing with JS in a way that makes the site more streamlined

- <https://hoba1.github.io/my-portfolio/>

X.O GAME [HTML-SASS-JS]

Applying the principles of JS and adding some additional features as well

- <https://hoba1.github.io/X-O-Game/index.html>

WEATHER APP [HTML-SASS-JS]

Applying the principles of JS and adding some additional features as well

- <https://hoba1.github.io/weather-app/>

TO-DO LIST [HTML-SASS-JS]

Applying the principles of JS and adding some additional features as well

- <https://hoba1.github.io/To-Do-List/>
